(a) Giesekus
(b) Rolie-Poly
$(\sigma_+ - \sigma_-)/d_1\eta_0,\ (\sigma_3 - \sigma_-)/d_1\eta_0$
$d_1\tau$ (true rate $\dot{\epsilon}\tau$ for the lines)
planar extension, η_{P1}
planar extension, η_{P2}
simple shear ($\alpha = 0$)
mixed, $\alpha = 0.3$
elliptic, $\alpha = -0.3$
$\alpha = 1$ (pure extension)
